TO:

REPLY TO ATTN OF:

SUBJECT:

14 December 1965

SUBJECT: Review of ECP-1987-19 (Contract No. FH-7321)

Airborne Instrument Laboratory

Deer Park, New York

TO : Contracting Officer

1. A review has been made, to the extent deemed necessary, of the contractor's cost proposal to provide capabilities for production of crew films in operation and the techniques involved in producing these films. The review consisted of an evaluation of the proposed labor, overheads and general and administrative expense rates, a verification of the material costs proposed, and the pricing of estimated travel expense. The estimated labor hours, material requirements, number of trips and the need for overtime are recommended for review by a technically qualified representative.

2. A summary of the contractor's proposed by element of cost and the auditor's recommendations are as follows:

	Per Contractor Proposal	Auditor's Recom- mended Reduction	Ref Notes
Direct Labor - Engineering Direct Labor - Manufacturing Engineering Burden 104% Manufacturing Burden 72.5% Materials and Purchased Parts Travel and Subsistence Overtime Premium Packaging and Shipping Subtotal G & A 7.5% Total Cost Fee Requested 7.5%	\$ 52,022 1,308 54,103 948 86,847 16,366 573 1,434 \$213,601 16,020 \$229,621 17,222	\$ 9,704 88 10,939 82 3,500 \$24,313 2,013 \$26,326	a b b c d e f b
Total Proposal	\$246,843 18300 218543	28 300	

Sanitized Copy Approved for Release 2010/12/09: CIA-RDP72B00464R000300040013-5

### Ref. Notes:

#### a. Direct Labor

(1) A comparison of the proposed average hourly rates by labor category with the average rates experienced under the 1987 program, of which this subject ECP is a part, indicated that the proposed rates are higher. The auditor's recommendation for a reduction is based on the substituting the actual average rates for the proposed hourly rates and questioning the difference as presented below:

	Aver Hourly Per Proposal		Difference in Rate Under Proposal (Over Proposal)	Proposed Estimated Labor Hours	Recommended Reduction Diff. x Hrs.
Administrative Engineering Technicians Publications Design and Drafting Packaging and Shipping Maintenance	\$3.98 7.63 3.86 3.27 3.70 2.80 3.27	\$3.06 6.02 3.44 3.63 3.63 2.70 3.05	\$ .92 1.61 .42 (.36) .07 .10 .22	700 5,090 1,840 170 120 90 620	\$ 644 8,195 773 (61) 8 9 136
Total Direct Engineering Labor Questioned \$9,704					
Shop	\$3.27	\$3.05	\$.22	400	\$ 88

It should be noted, acceptance of the proposed hourly rates in previous reviews performed on ECPs under this same program, were based on the compatability with the actual experienced rates recommended by the Auditor for this report.

(2) A review of the direct labor hours by a qualified technical representative is recommended.

#### b. Burden and General and Administrative Expense

The burdens and G & A rates proposed are considered somewhat excessive compared to the current year to date incurred rates, as well as the contractor's budgets and forecasts. The contractor's computation and the Auditor's recommendations are as follows:

	Engineering Burden	Manufacturing Burden	G & A
Per Contractor's Proposal			
Base Rate Burden A	\$52,022 104% <u>\$54,103</u>	\$1,308 72.5% <u>\$</u> 948	\$213,601 7.5% \$ 16,020
Per Auditor			
Base Per Contractor: Less: Auditor's Applicable Cost Quest. Base Per Auditor Rate Burden B	\$52,022 9,704 \$42,318 102% \$43,164	\$1,308 <u>88</u> \$1,220 71% \$ 866	\$213,601 24,313 \$189,288 7.4% \$ 14,007
Costs Questioned A - B	\$10,939	<u>\$ 82</u>	\$ 2,01 <u>3</u>

### c. Materials and Purchased Parts

(1) Except for two (2) items, the contractor's pricing of the bill of materials were verified to either purchase orders or to a vendor's catalogue. The Auditor's exceptions are based on lack of any support for miscellaneous photo supplies \$2,000 and a \$1,500 estimate for engineering changes that may be needed for alterations to the animation stands.

(2) The need for the particular items listed in the contractor's bill of materials are recommended for review by a technical representative.

#### d. Travel and Subsistance

The contractor's pricing of travel expense is considered acceptable for the purpose of this report. However, the need and number of trips are recommended for review by a technically qualified representative. The estimated round trips are as follows:

1 - Fourteen (14) day trips to the West Coast to set up the facility and start the operation (14 x \$801 = \$11,214).

- 2 Twelve (12) two (2) day trips to the Mid-West for interface meetings with OPS personnel (12 x \$152 = \$1.824).
- 3 Eight (8) three (3) day trips to the West Coast for vendor liason work (8 x \$416 = \$3,328).

## Sanitized Copy Approved for Release 2010/12/09: CIA-RDP72B00464R000300040013-5

#### e. Overtime Premium

The contractor estimated 10% of Class VI through IX labor as overtime. The premium portion is computed by applying  $\frac{1}{2}$  of the hourly rate to 10% of the estimated direct labor of these classes as follows:

Labor Class	Proposed Estimated Labor Hours	Hourly Rate Per Proposal	10% of Proposed Labor Hours	1/2 of Hourly Rate	Premium Time
VII VIII VI	1600 1410 90 280	\$3.70 3.27 2.80 2.33	160 140 10 30	\$1.85 1.63 1.40 1.16	\$296 228 14 <u>35</u> \$573

## f. Packaging and Shipping

No exceptions noted.

g. Contractor has requested a fee based on 10% of the estimated costs.

3. The results of the review were discussed with the contractor's representative who reserved comment at this time.

WILLIAM F. EDWARDS
Auditor General Representative (APL)
